Akshay Gautam

LEAD SOFTWARE ENGINEER | AI & AGENTIC SYSTEMS

New Delhi, India | akshaygautamofficial@gmail.com

Portfolio: akshaygautam.github.io/portfolio | LinkedIn: linkedin.com/in/akshay-gautam-74577a117 | GitHub: github.com/akshaygautam

PROFESSIONAL SUMMARY

AI-native Lead Software Engineer with 9+ years of experience building scalable backend, cloud, and agentic systems. Combines hands-on engineering with technical leadership to improve product performance, service reliability, and infrastructure cost. Uses AI agents throughout engineering workflows and builds human-guided agentic solutions for software development and operational automation.

TECHNICAL SKILLS

Languages & backend: Python, Java, C#, Go, .NET, Spring Boot, microservices, REST APIs

AI & cloud: LLMs, agentic AI, AI agents, Copilot, Google Cloud, Azure, AWS, Docker, Kubernetes

Data & platforms: PostgreSQL, Redis, Redshift, Elasticsearch, Azure Blob Storage

Engineering & leadership: System design, performance optimization, CI/CD, GitHub Actions, Jenkins, technical leadership, mentoring

PROFESSIONAL EXPERIENCE

Google Cloud | Lead Software Engineer

Sep 2025 – Present

- Lead work on a mission-critical, heavily queried Google Cloud Support service with stringent low-latency requirements.
- Led two L4 and two L3 engineers to build an automation and reporting platform that helps Support teams automate workflows and resolve customer issues more effectively.
- Enabled AI-assisted automation creation: builders describe their intent, and AI generates a complete automation, streamlining onboarding of new automations.
- Building Artificial Intern, an autonomous coding agent that takes assigned tasks, proposes a plan for approval, implements approved work, and monitors pull request feedback to improve its skills.

Scaler | Student Mentor (Freelance)

Apr 2022 – Present

Mentor students in software engineering and support their professional development.

Microsoft R&D | Software Engineer 2

Aug 2021 – Sep 2025

Worked across Microsoft Teams and Planner Copilot, Whiteboard, Word Online, and Microsoft 365 content delivery.

- Improved Microsoft Teams Whiteboard responsiveness by 20% by leading a focused performance effort.
- Partnered with product and UX teams on Whiteboard Copilot, which turns meeting discussions into actionable diagrams.
- Reduced Word Online boot time by 300 ms and improved time to visual ready by 1,400 ms.
- Led 1CDN modernization with dynamic CDN switching, reducing CDN operating costs by 15–20% and improving content delivery reliability across regions.
- Developed Teams and Planner Copilot agents and skills; mentored interns on A2A protocol and vector persistence projects.

Technologies: C#, .NET, Azure Logic Apps, Azure Pipelines, Kusto, Azure Data Factory, Python, LLMs

FarEye (Roboticsware) | Software Development Engineer to SDE 2
Apr 2019 – Aug 2021

Built and optimized backend services and products across reporting, integrations, and logistics.

- Cut report turnaround from 15 days to 2–3 days, reduced legacy-system load by 10%, and lowered AWS infrastructure costs by 30–40% by redesigning Reports & Insights around Redshift.
- Moved 15% of traffic off the monolith with a connector microservice, improving responsiveness and system availability.
- Optimized FarEye Mobi to reduce latency and improve throughput and stability.
- Led FarEye Loupe, a hackathon project that made it easier for employees to share solutions and knowledge.

Technologies: AngularJS, React, Spring Boot, PostgreSQL, RabbitMQ, Redis, Elasticsearch, AWS, Redshift, Docker

G4S IT Services | Associate Systems Developer
Feb 2017 – Mar 2019

Developed APIs and frontend features for the Javelin ERP and customer portal.

- Built and integrated Javelin APIs with internal services, improving reliability and reducing integration complexity.
- Developed customer portal features to help clients track expenses and plan resources.

Technologies: Java, Spring Boot, PostgreSQL, AngularJS, Redis, Docker

EDUCATION

Bachelor of Technology in Computer Science
Manav Rachna International University | 2013–2017
